PROFESSIONAL SUMMARY

Entry-Level cybersecurity professional with hands-on training in Penetration Testing, Security Analysis, SOC Monitoring, Vulnerability Assessment, and Incident Response. Skilled in using industry-standard tools to detect and mitigate threats. I am seeking an opportunity to apply my knowledge and contribute to a dynamic security team while further developing my practical skills.

EDUCATION

Maseno University

Maseno, Kenya

BSC in Mathematics and Computer Science (Second Class Honours(upper Division))

- Relevant Coursework: Networking, SQL, Databases and Systems, Operating Systems.

WORK EXPERIENCE

RAM Hospital Kisii

Kisii, Kenya

ICT Volunteer

March 2024 – September 2024

- Conducted system maintenance and updates.
- Supported digital transformation initiatives, i.e, adoption of a new health management system.
- Performed LAN (Local Area Network) administration and troubleshooting.
- Conducted hardware maintenance.
- Offered general user support services.

The Nairobi Hospital

Nairobi, Kenya

ICT Intern

July 2022 – September 2022

- Performed workstation administration using Windows Active Directory
- Conducted Inventory management of ICT assets within the hospitals.
- Offered hardware support for workstations, i.e., printers and UPS
- Offered general user support.
- Conducted hardware maintenance

TRAINING

Security Analyst course – Cyber Shujaa

September 2025- December 2025

- Relevant Coursework: Vulnerability Assessment, Penetration Testing, Security Operations, Linux and Windows Operating Systems, Digital Forensics.

CERTIFICATIONS & BADGES

Available on credly: <https://www.credly.com/users/austin-asang-ai/badges#credly>

- Introduction to Cybersecurity
- Introduction to Networking
- CCNA: Switching, Routing, and Wireless Essentials

SKILLS

Cybersecurity Fundamentals: TCP/IP, DNS, OS basics (Linux & Windows), CIA Triad, Authentication & Access Control.

Security Monitoring and SOC: Log analysis, alert triage, incident response workflow, SIEM basics.

Vulnerability Assessment/ Pentesting: Network Scanning, Vulnerability detection, basic exploit testing.

Forensics and Investigation: Digital Evidence collection, file analysis, basic disk imaging.

Reporting and Documentation: Writing Incident Reports and Professional Security Documentation
